Professional Experience

Project Leader, Senior UI Designer

Healapp Solutions Pvt. Ltd.

📅 September 2015 - Present

📍 Kolkata, West Bengal

- Working in an agile environment on multiple, simultaneous desktop and mobile products, designing features and common experiences, defining new patterns.
- Leading discovery sessions with users and stakeholders to define features and interaction, leading to high-fidelity mockups for the design and product development teams.
- Engaging and collaborating with product owners, managers and development leads to solve complex user and business goals, while empowering excellent, high-quality visual design, concept models, heuristic reviews, sitemaps, process flows, sketches and wireframes.
- Provided vision and direction to the development team and stakeholders throughout the project and create requirements.
- Ensured that the team always has an adequate amount of prior prepared tasks to work on
- Planned and prioritized product feature backlog and development for the product
- Defined product vision, roadmap and growth opportunities
- Led the planning product release plans and set expectation for delivery of new functionalities
- Provide training to the end user.
